The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more. The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the “need for speed” characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960–1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make’s status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and

dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs. Abstract: Nonfood compounds authorized by Chemistry Division, Science, Food Safety and Quality Service for use in slaughtering and processing plants operating under the USDA Poultry, Meat, Rabbit, Shell Egg Grading and Egg Products Inspection Programs are listed. A nonfood compound is any agent proposed for use in a federally inspected plant but not intended as an ingredient of meat, poultry, rabbit or egg product. Procedures for obtaining compound authorization are given. Listed and unlisted compounds need USDA authorization. Denaturants; outdoor pesticides; compounds used in nonprocessing areas, cafeterias, heating systems, or holding pens do not require evaluation. Compounds listed as not applicable for evaluation may not be used in the processing area of a plant. Category code letters designate restrictions for use of each compound. Instructions for use of the list are

given. The new edition of this successful manual has been carefully revised throughout to take account of recent changes and to incorporate amendments required due to the publication of the revised BS 5328.
