The Choice Of Hercules Apr 11 2022 Duty or Pleasure? This was the legendary choice which faced Hercules and which pre-eminent philosopher A.C. Grayling uses as the starting point of this masterful book. He shows us how much more people can understand about themselves and their world by reflecting on today's moral challenges. Above all, he explores the idea that certain demands and certain pleasures are necessary, not just because of their intrinsic merits but because of what they do for each other. With exceptional clarity and unrivalled prose, Grayling addresses the everyday ethical choices which confront us all.

Why I Read Jun 13 2022 "Wendy Lesser's extraordinary alertness, intelligence, and curiosity have made her one of America's most significant cultural critics," writes Stephen Greenblatt. In *Why I Read*, Lesser draws on a lifetime of pleasure reading and decades of editing one of the most distinguished literary magazines in the country, *The Threepenny Review*, to describe her love of literature. As Lesser writes in her prologue, "Reading can result in boredom or transcendence, rage or enthusiasm, depression or hilarity, empathy or contempt, depending on who you are and what the book is and how your life is shaping up at the moment you encounter it." Here the reader will discover a definition of literature that is as broad as it is

broad-minded. In addition to novels and stories, Lesser explores plays, poems, and essays along with mysteries, science fiction, and memoirs. As she examines these works from such perspectives as "Character and Plot," "Novelty," "Grandeur and Intimacy," and "Authority," *Why I Read* sparks an overwhelming desire to put aside quotidian tasks in favor of reading. Lesser's passion for this pursuit resonates on every page, whether she is discussing the book as a physical object or a particular work's influence. "Reading literature is a way of reaching back to something bigger and older and different," she writes. "It can give you the feeling that you belong to the past as well as the present, and it can help you realize that your present will someday be someone else's past. This may be disheartening, but it can also be strangely consoling at times." A book in the spirit of E. M. Forster's *Aspects of the Novel* and Elizabeth Hardwick's *A View of My Own*, *Why I Read* is iconoclastic, conversational, and full of insight. It will delight those who are already avid readers as well as neophytes in search of sheer literary fun.

[Children Reading for Pleasure in the Digital Age](#) Mar 10 2022

What does it mean to become a reader? What are the challenges and opportunities of engaging children in reading for pleasure in

the 21st century? This book explores the ways in which reading for pleasure is changing in the era of globalisation, multiculturalism and datafication. Raising the next generation of engaged readers requires knowledge of the enduring characteristics of engagement and markers of quality in books and e-books. In addition, in order to develop new insights into children's experience of reading on and off screen, nuanced understandings of psychological and socio-cultural research are offered. The cross-disciplinary examination integrates key research from educational psychology, new literacies, multimodality and socio-cultural perspectives and explores consequences for practice. An authoritative guide - it invites graduates, researchers and teachers to participate in the authors' interdisciplinary dialogue about reading for pleasure.

Building Communities of Engaged Readers Sep 04 2021

Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and

demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

The Performance of Pleasure in English Renaissance Drama

Feb 15 2020 Offering new and theatrically informed readings of plays by a broad range of Renaissance dramatists - including Marlowe, Jonson, Marston, Webster, Middleton and Ford - this new book addresses the question of pleasure: both erotic pleasure as represented on stage and aesthetic pleasure as experienced by readers and spectators. Some of the issues raised (the distribution of pleasure by gender, the notion of consent) intersect with feminist reinterpretations of Renaissance culture.

Emotions and Values in Equity Crowdfunding Investment Choices 1 Dec 15 2019 Equity crowdfunding is a new way for seed stage start-ups to generate initial capital and, as such, raises questions around the choices made by investors within this area.

Understanding it is important for investor protection, as investors

are generally unaware of the factors that can influence their decisions. However, investing in equity crowdfunding places the investor in a unique decision-making framework, in which resources such as images, videos and storytelling are all mobilized by entrepreneurs and platforms as tools of persuasion. This context thus seems to favor more holistic and emotional decision-making, rather than a process that is rational and analytical. This first volume centers on the emotional and axiological determinants of choice. A transdisciplinary theoretical analysis is carried out, combining different fields within the social sciences, primarily finance, marketing and psychology. This state of the art leads to the emergence of an original theoretical framework for understanding investment choices in equity crowdfunding.

Pleasure Activism Oct 25 2020 How do we make social justice the most pleasurable human experience? How can we awaken within ourselves desires that make it impossible to settle for anything less than a fulfilling life? Editor adrienne maree brown finds the answer in something she calls "Pleasure Activism," a politics of healing and happiness that explodes the dour myth that changing the world is just another form of work. Drawing on the black feminist tradition, including Audre Lourde's invitation to use the erotic as power and Toni Cade Bambara's exhortation that we make the revolution irresistible, the contributors to this volume take up the challenge to rethink the ground rules of activism. Writers including Cara Page of the Astraea Lesbian Foundation For Justice, Sonya Renee Taylor, founder of This Body Is Not an Apology, and author Alexis Pauline Gumbs cover a wide array of subjects—from sex work to climate change, from race and gender to sex and drugs—they create new narratives about how politics can feel good and how what feels good always has a complex politics of its own. Building on the success of her popular *Emergent Strategy*, brown launches a new series of the same name with this volume, bringing readers books that explore experimental, expansive, and innovative ways to meet the challenges that face our world today. Books that find the opportunity in every crisis!

Alcohol and Pleasure Apr 30 2021 There is no simple threshold between the experience of drinking and the pleasure it can bring on the one hand and the pain and suffering caused by alcohol abuse on the other. But if we are to understand the role of alcohol in society, then at the very least we need to acknowledge the pleasure as well as the pain. Alcohol and Pleasure aims to bring together existing knowledge on the role of pleasure in drinking and determine whether the concept is useful for scientific understanding and policy consideration.

Dopamine Nation Feb 26 2021 INSTANT NEW YORK TIMES and LOS ANGELES TIMES BESTSELLER “Brilliant . . . riveting, scary, cogent, and cleverly argued.”—Beth Macy, author of Dopesick, as heard on Fresh Air This book is about pleasure. It’s also about pain. Most important, it’s about how to find the delicate balance between the two, and why now more than ever finding balance is essential. We’re living in a time of unprecedented access to high-reward, high-dopamine stimuli: drugs, food, news, gambling, shopping, gaming, texting, sexting, Facebooking, Instagramming, YouTubing, tweeting . . . The increased numbers, variety, and potency is staggering. The smartphone is the modern-day hypodermic needle, delivering digital dopamine 24/7 for a wired generation. As such we’ve all become vulnerable to compulsive overconsumption. In Dopamine Nation, Dr. Anna Lembke, psychiatrist and author, explores the exciting new scientific discoveries that explain why the relentless pursuit of pleasure leads to pain . . . and what to do about it. Condensing complex neuroscience into easy-to-understand metaphors, Lembke

illustrates how finding contentment and connectedness means keeping dopamine in check. The lived experiences of her patients are the gripping fabric of her narrative. Their riveting stories of suffering and redemption give us all hope for managing our consumption and transforming our lives. In essence, Dopamine Nation shows that the secret to finding balance is combining the science of desire with the wisdom of recovery.

The Chinese Pleasure Book Nov 25 2020 This book takes up one of the most important themes in Chinese thought: the relation of pleasurable activities to bodily health and to the health of the body politic. Unlike Western theories of pleasure, early Chinese writings contrast pleasure not with pain but with insecurity, assuming that it is right and proper to seek and take pleasure, as well as experience short-term delight. Equally important is the belief that certain long-term relational pleasures are more easily sustained, as well as potentially more satisfying and less damaging. The pleasures that become deeper and more ingrained as the person invests time and effort to their cultivation include friendship and music, sharing with others, developing integrity and greater clarity, reading and classical learning, and going home. Each of these activities is explored through the early sources (mainly fourth century BC to the eleventh century AD), with new translations of both well-known and seldom-cited texts.

Schadenfreude Jul 02 2021 When someone suffers a mishap, a setback or a downfall, we sometimes find ourselves experiencing schadenfreude - an emotion defined as deriving pleasure from another's misfortune. Schadenfreude is a common experience and an emotion which is seemingly inherent to social being. This book offers a comprehensive summary of current theoretical and empirical work on schadenfreude from psychological, philosophical and other scientific perspectives. The chapters explore justice as an underlying motive for schadenfreude, and the role played by social comparison processes and envy in evoking pleasure at the misfortunes of others in interpersonal relations. Schadenfreude is also described as a common phenomenon in intergroup relations. This is a compelling volume on a fascinating subject matter that aims to increase our understanding of the nature of this emotion and the role it plays in social relations.
