*The Day You Begin* Oct 26 2020 A #1 NEW YORK TIMES BESTSELLER! Featured in its own episode in the Netflix original show *Bookmarks: Celebrating Black Voices!* National Book Award winner Jacqueline Woodson and two-time Pura Belpré Illustrator Award winner Rafael López have teamed up to create a poignant, yet heartening book about finding courage to connect, even when you feel scared and alone. There will be times when you walk into a room and no one there is quite like you. There are many reasons to feel different. Maybe it's how you look or talk, or where you're from; maybe it's what you eat, or something just as random. It's not easy to take those first steps into a place where nobody really knows you yet, but somehow you do it. Jacqueline Woodson's lyrical text and Rafael López's dazzling art reminds us that we all feel like outsiders sometimes--and how brave it is that we go forth anyway. And that sometimes, when we reach out and begin to share our stories, others will be happy to meet us halfway. (This book is also available in Spanish, as *El Día En Que Descubres Quién Eres!*)

**Implementing Guided Reading Strategies with Kindergarten and First Grade Students** Oct 06 2021 In the action research project report, the teacher researchers found that many kindergarten and first-grade students did not have the reading readiness skills to be reading at their benchmark target. The purpose of the project was to improve the students overall reading ability. The dates of the project began on September 8 through December 20, 2011. There were 74 students and 74 parents that participated in this research study. The teacher researchers noticed that the students lacked reading readiness skills that were necessary to meet grade level benchmarks. The teacher researchers used a parent survey, baseline assessments, and observational checklist to document evidence. The teacher researchers found from the parent survey that students who lacked interest in books and reading them demonstrated low reading readiness skills. The baseline assessment the students took showed an overall weakness in letter identification, initial sounds, medial sounds, and ending sounds. The observational checklist indicated difficulty with segmenting sounds, letter sound knowledge, inability to rhyme, decoding difficulties and reading miscues, poor comprehension, lack of interest in books, lack of print awareness skills, poor attentions spans, lack of response during whole group instruction, and off-task behaviors. The teacher researchers used a variety of interventions to improve their students overall reading skills. These interventions included small guided reading groups, word work, phonemic awareness drills, and posters that gave visual clues on how to decode unknown words. In the guided reading groups the students were paired with other students at their same reading ability. Flashcards were used during word work that helped to gain letter and sound knowledge and identification. Phonemic awareness drills helped to promote students sound and decoding skills. The posters provided a quick and kid friendly visual clue to help read unknown words. The students overall reading growth was the most notable result taken from the action research project. The teacher researchers saw marked growth in letter recognition and beginning sounds. In letter recognition the targeted students represented that 100% (n=21) of the students recognized all 10 of the letters tested. In beginning sounds 100% (n=21) the targeted students recognized all 3 beginning sounds. The teacher researchers concluded that the interventions used during this research project helped to promote reading readiness skills in most of the targeted students. Four appendixes present: (1) Parent Survey; (2) Observational Check List; (3) Site A Baseline Assessment; and (4) Site B Baseline Assessment. (Contains 6 tables and 31 figures.)

**More Than Guided Reading** Nov 26 2020 Is there too much emphasis on guided reading in primary classrooms? It's a question that many educators, like kindergarten teacher and literacy coach Cathy Mere, are starting to ask. Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts, but Cathy found that she needed to find other ways to help students gain independence. While maintaining guided reading as an important piece of their reading program, teachers need to offer students opportunities during the day to develop as readers, to learn to choose books, to find favorite genres and authors, and to talk about their reading. In *More Than Guided Reading*, Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning?not only providing more time for students to discover their reading lives, but also shaping instruction to meet the needs of the diverse learners in her classroom. By changing the structure of the day, Cathy found she was better able to adjust the support she was providing students, allowing time for whole-class focus lessons, conferences, and opportunities to share ideas, as well as reading from self-selected texts using the strategies, skills, and understandings acquired in reader's workshop. The focus lesson is the centerpiece of the workshop. It is often tied to a read-aloud and connected to learning from the previous day, helping to build skills, extend thinking, and develop independence over time. This thoroughly practical text offers numerous sample lessons, questions for conferences, and ideas for revamping guided reading groups. It will help teachers tweak the mix of instructional components in their reading workshops, and provoke school-wide conversations about the place of guided reading in a complete literacy curriculum.

I. Phonics Method. First teach the elementary sounds and their representative, as they occur in the lessons; then, the formation of words by the combination of these sounds. For instance, teach the student to identify the characters a, o, n, d, g, r, and th, in Box B of Lesson 1, as the representatives of certain elementary sounds; then teach him to form the words in Box A of the lesson, then other words, as nag, on, and, etc. Use a similar method in teaching the succeeding lessons. After having read a few lessons in this manner, begin to teach the spelling of words, and require the groups, "a man," "the man," "a pen," to be read as a good reader would pronounce single words. II. Word Method. Teach the student to identify at sight the words in Box A of the reading exercises, and to read these exercises without hesitation. After having read a few lessons in this manner, begin to teach the spelling of words. III. Word Method and Phonics Method Combined.--Teach the student to identify words and read sentences, as above. Having read a few lessons in this manner, begin to use the Phonics Method, combining it with the Word Method, by first teaching the words in each lesson as words; then the elementary sounds, and spelling.
