Last Breath Dec 18 2022 Sudden, extreme deaths have always fascinated us-- and now more than ever as athletes and travelers rise to the challenges of high-risk sports and journeys on the edge. In this spellbinding book, veteran travel and outdoor sports writer Peter Stark reenacts the dramas of what happens inside our bodies, our minds, and our souls when we push ourselves to the absolute limits of human endurance. Combining the adrenaline high of extreme sports with the startling facts of physiological reality, Stark narrates a series of outdoor adventure stories in which thrill can cross the line to mortal peril. Each death or brush with death is at once a suspense story, a cautionary tale, and a medical thriller. Stark describes in unforgettable detail exactly what goes through the mind of a cross-country skier as his body temperature plummets-- apathy at ninety-one degrees, stupor at ninety. He puts us inside the body of a doomed kayaker tumbling helplessly underwater for two minutes, five minutes, ten minutes. He conjures up the physiology of a snowboarder frantically trying not to panic as he consumes the tiny pocket of air trapped around his face under thousands of pounds of snow. These are among the dire situations that Stark transforms into harrowing accounts of how our bodies react to trauma, how reflexes and instinct compel us to fight back, and how, why, and when we let go of our will to live. In an increasingly tamed and homogenized world, risk is not only a means of escape but a path to spirituality. As Peter Stark writes, "You must try to understand death intimately and prepare yourself for death in order to live a full and satisfying life." In this fascinating, informative book, Stark reveals exactly what we're getting ourselves into when we choose to live-- and die-- at the extremes of endurance.

**To The Last Breath** Mar 09 2022 On January 22, 1994, two-year old Renee Goode played happily with her sisters and cousin, as the four of them enjoyed an impromptu "slumber party" at the home of her father, Shane Goode. The next day she was dead. The local medical examiner could not determine the cause of little Renee's death. But her mother Annette and grandmother Sharon were convinced she'd been murdered--and that they knew the identity of Renee's killer: her handsome father, Shane Goode, a manipulative, emotionally abusive man who displayed virtually no interest in Renee--until he took out a \$50,000 insurance policy on her life. With the help of a courageous female police investigator and Assistant DA, Sharon launched a case against Shane and had Renee's tiny coffin, lovingly filled with her favorite stuffed animals, exhumed from its final resting place. And her small corpse revealed what her grandmother had suspected all along: cold, calculating Shane Goode had murdered his own daughter to cash in on her death. To the Last Breath is the winner of the 1999 Edgar Award for Best Fact Crime.

**Until Our Last Breath** Aug 22 2020 "This is a powerful tale of the triumph of love under extremely difficult conditions. " - Publishers Weekly At Leizer Bart's funeral, one of the mourners told his son Michael that the gravestone should include a reference to the Freedom Fighters of Nekamah, to honor his late father's involvement in the Jewish resistance movement in Vilna (now Vilnius), Lithuania, at the end of World War II. Michael had never heard his parents referenced as

Freedom Fighters. Following his father's death, and with his mother in failing health, Michael embarked on a ten-year research project to find out more details about his parents' time in the Vilna ghetto, where they met, fell in love, and married, and about their activities as members of the Jewish resistance. *Until Our Last Breath* is the culmination of his research, and his parents' story of love and survival is seamlessly tied into the collective story of the Vilna ghetto, the partisans of Vilna, and the wider themes of world history. Zenia, Bart's mother, was born and raised in Vilna. Leizer fled there to escape the Nazi invasion of his hometown of Hrubieshov in Poland. They were married by one of the last remaining rabbis ninety days before the liquidation of the ghetto. Leizer was friends with Zionist leader Abba Kovner and became a member of the Vilna ghetto underground. Shortly before the total liquidation of the ghetto, Zenia and Leizer, along with about 120 members of the underground, were able to escape to the Rudnicki forest, about 25 miles away. They became part of the Jewish partisan fighting group led by Abba Kovner—known as the Avengers—which carried out sabotage missions against the Nazi army and eventually participated in the liberation of Vilna. *Until Our Last Breath* is intensely personal and painstakingly researched, a lasting memorial to the Jews of Vilna, including the resistance fighters and the author's family.

**Caesar's Last Breath** Oct 16 2022 The Guardian's Best Science Book of 2017: the fascinating science and history of the air we breathe. It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic story to tell. In *Caesar's Last Breath*, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our continents, steered human progress, powered revolutions, and continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, *Caesar's Last Breath* illuminates the science stories swirling around us every second.
