The World Conquerors Oct 25 2020 The Second World War was said to have been waged for "the rights of small nations," but the author, like countless other Hungarians, is literally "on the run from Communism." He has been living in exile since 1945 because of his anti-communist views. Although he was never a member of any party, the Communist regime of Hungary, with typical effrontery, demanded that the U.S.A. authorities "hand Louis Marschalko over as a war criminal." A former special correspondent of two leading newspapers in pre-Communist Hungary, Marshalko is a brilliant novelist, playwright and poet and has many hundreds of articles in his credit. **WORLD CONQUERORS** expresses some of the bitterness and contempt of enslaved Europeans for the rulers of the "victorious nations." It

shows that by being urged to throw off the German yoke, the central European nations were tricked into becoming satellites of the Soviet. *WORLD CONQUERORS* indites the real war criminals. It gives horrifying glimpses of the agony behind the Iron Curtain and describes the plot to extend the slave system to the Western world. Thousands of copies of the Hungarian edition have been sold and this English translation is published to warn the West. It is written by one who is a firm friend of the English-speaking people but an implacable foe of their vacillating and corrupt governments.

The Soul Catcher Jun 13 2022 Return to the world of criminal profiler Maggie O'Dell, in book 3 of the thrilling series by

bestselling author Alex Kava. In a secluded cabin six young men stage a deadly standoff with FBI agents. In a wooded area near the FDR Memorial in Washington, the body of a senator's daughter is discovered. For FBI Special Agent Maggie O'Dell, there is nothing routine about being called in to work these two cases. As an expert criminal profiler, Maggie provides psychological insight on cases that involve suspected serial killers. She can't understand, then, why she has been assigned to two seemingly unrelated crimes. But as Maggie and her partner, Special Agent R. J. Tully, delve deeper into the cases, they discover there is a connection: Reverend Joseph Everett, the charismatic leader of a high-profile religious sect. The men holed up in the cabin were members of Everett's church, and the murder of the young woman took place following one of Everett's rallies. Is Everett a psychotic madman who uses his power to perform heinous crimes? Or is he merely the scapegoat for a killer more cunning than he? Maggie realizes the only way to find out is by using her own mother, a member of Everett's church, as a pawn in a deadly trap. Originally published in 2002

series, teaming up once more with FBI profiler Maggie O'Dell in their riskiest case yet. When Ryder Creed responds to a devastating mudslide in North Carolina, he knows that the difference between finding survivors and the dead is time. He and his sturdiest search-and-rescue dog, Bolo, get to work immediately, but the scene is rife with danger: continued rainfall prevents the rescue teams from stabilizing the land; toxic household substances spread by the crushing slide fill the area with hazardous waste; and the detritus and debris are treacherous for both man and dog to navigate. But most perilous are the secrets hidden under the mud and sludge—secrets someone would kill to protect. For this is no ordinary rescue mission. Among the buildings consumed by the landslide was a top-secret government research facility, and Creed has been hired to find what's left of it. Then rescuers recover the body of a scientist from the facility who was obviously dead before the landslide—killed by a gunshot to the head. The FBI sends Agent Maggie O'Dell to investigate, and she and Creed are soon caught in a web of lies, secrets, and murder that may involve not only the government facility, but decades-old medical experiments that are the subject of current congressional hearings. As more bodies are found under even more unusual circumstances, they come ever closer to exposing the truth—but with unknown forces working against them, Maggie, Creed, and the dogs are running out of time.

Mystic Isles of the South Seas May 20 2020 Most people have heard of Charles Bernard Nordhoff and James Norman Hall who came out to Tahiti and wrote *Mutiny on the Bounty* and its sequels, as well as *Faery Lands of the South Seas*, another installment in the Resnick Library of Worldwide Adventure. But there was another American, all but forgotten today, who traveled to the South Seas, fell in love with what he saw, and took pen to paper to share his experiences with those back home. His name was Frederick J. O'Brien, and, after working for a time for the Manila Times, he wrote a trio of books about what he had seen and experienced. Before the dust had cleared, he had written *White Shadows in the South Seas*, *Mystic Isles of the South Seas*, and *Atolls of the Sun* -- all classics in the field, and until now all long out of print. Not meant to be in any way academic, these

books are quite simply love poems written to the tropical paradise that was French Polynesia in the early years of the 20 "th" Century. As the author himself puts it in his foreword: "It is for those who stay at home yet dream of foreign places that I have written this book, a record of one happy year spent among the simple, friendly cannibals....There is little of profound research. Nothing, I fear, to startle the anthropologist or to revise encyclopedias; such expectation was far from my thoughts when I sailed from Papeite on the Morning Star. I went to see what I should see, and to learn whatever should be taught me by the days as they came. What I saw and what I learned the reader will see and learn, and no more." With plenty of photographs to illustrate his text, O'Brien has given readers a glimpse of South Seas life the way it used to be -- and through his own words, we feel as though we have been there.

Forsaken [2-Books-In-1] Dec 07 2021 A Necessary Evil When a Monsignor is found knifed to death in a Nebraska airport restroom, FBI special agent Maggie O'Dell is called in to profile the ritualistic murder of a priest, the latest in a series of killings. Maggie knows the bargain is a necessary evil...one that may be made in blood... Exposed Agent Maggie O'Dell and Assistant Director Cunningham believe they're responding to a threat made at Quantico. Instead they walk into a trap. Before they realise it,

they've both been exposed to a killer who can strike at anyone, at any time, and no one can predict who might be next...until it's too late. The killer's tactics suggest he's an aficionado of criminal minds. He uses bits and pieces from those he admires: a phrase from the Beltway Snipers, a clue from the Unabomber, a delivery method similar to the Anthrax Killer. His weapon is a deadly virus, virtually invisible and totally unexpected. His victims appear to be random but, in fact, they are chosen with a revengeful precision. The vaccine is limited and untested. Maggie knows dangerous minds from hauntingly perverse child predators to cunningly twisted serial killers. Now she faces a new opponent from inside an isolation ward at a biosafety containment hospital. Maggie must help Agent R. J. Tully find clues to catch the killer while waiting to see if the deadly strain is already multiplying in her body. With every new exposure there's the potential for an epidemic. And Maggie knows she and Cunningham may not live long enough to discover who is the deadliest, most intelligent killer they've ever profiled.

Tigers in Combat Jul 02 2021 • Hundreds of photos--many of them rare--of Tiger tanks and their crews • Color illustrations by Jean Restayn focus on markings, camouflage, and insignia • Inventories and timelines for each unit In this follow-up to *Tigers in Combat I* (0-8117-3171-5), Wolfgang Schneider turns his attention to the Tiger tanks of the Waffen-SS and the Wehrmacht's "named" units, such as the Großdeutschland Division, Company Hummel, and Tiger Group Meyer. Based on combat diaries, the text tells the history of each unit, but most of the book is devoted to photos of the tanks and the men who manned them. It offers as unique and comprehensive a look at these lethal machines as is possible decades after World War II.

The Soul Catcher Jan 16 2020 Return to the world of criminal profiler Maggie O'Dell, in book 3 of the thrilling series by bestselling author Alex Kava. In a secluded cabin six young men stage a deadly standoff with FBI agents. In a wooded area near the FDR Memorial in Washington, the body of a senator's daughter is discovered. For FBI Special Agent Maggie O'Dell, there is nothing routine about being called in to work these two cases. As an expert criminal profiler, Maggie provides psychological insight on cases that involve suspected serial killers. She can't understand, then, why she has been assigned to two seemingly unrelated crimes. But as Maggie and her partner,

Special Agent R. J. Tully, delve deeper into the cases, they discover there is a connection: Reverend Joseph Everett, the charismatic leader of a high-profile religious sect. The men holed up in the cabin were members of Everett's church, and the murder of the young woman took place following one of Everett's rallies. Is Everett a psychotic madman who uses his power to perform heinous crimes? Or is he merely the scapegoat for a killer more cunning than he? Maggie realises the only way to find out is by using her own mother, a member of Everett's church, as a pawn in a deadly trap.

Then the killers pick up the phone. And suddenly, they know what Frankie looks like, who she is, where she works and lives. She knows

absolutely nothing about them. But one thing's for certain—they're coming for her next. —WHEN THE STORM HITS— Frankie calls the only people she knows can help: her childhood friend, Hannah Washington and Hannah's business partner, Ryder Creed. Hannah tells her to "come on home," and she arranges a meeting for Frankie to meet with FBI agent Maggie O'Dell. Meanwhile in the Florida Panhandle: Creed's sister, Brodie is dealing with her own storm. She's realizing that after sixteen years of captivity, surviving was only the first step. With the killers hot on her trail, Frankie races to meet Maggie. But she has no idea that she's driving straight into the grasp of another killer—a monster storm system. She and Maggie will need Ryder and Jason's help, but no one is safe from the devastation. And by the time the sky clears, none of them will ever be the same. WHO WILL BE STRONG ENOUGH TO SURVIVE?
