**3:16 Study Guide plus Streaming Video, Updated Edition** Feb 22 2023 \*Entirely rewritten and re-filmed for a more focused and deeply personal study of the most-loved verse in the Bible—John 3:16. In this updated classic Bible study (video streaming included), bestselling author and pastor Max Lucado pulls back the curtain on his favorite Bible passage to move you to a profound awareness of God's limitless love, His incalculable sacrifice, and the certainty of His offer of eternal life. "For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have eternal life." This passage is a twenty-six-word parade of hope. A verse brief enough to write on a napkin or memorize in a moment...and solid enough to weather 2,000 years of storms and questions. With deeply personal accounts of the way this verse shaped Max's own faith journey, this study will reveal the gospel story surrounding the promise and unpack God's plan of restoration from the human problems of sin and death. If you know nothing about the Bible, the promise of John 3:16 is where to start. This video study guide has everything you need for a full Bible study experience, including: The study guide itself—with discussion and reflection questions, video notes, and a leader's guide. **A Collector's Guide to American Flyer "Tru-Model" Trains, 3/16" Scale "O" Gauge, 1939-1941** Mar 19 2020 Following responses from numerous discussions/arguments with (mostly older) "train guys" as to whether American Flyer trains had two or three rail track, it seemed some clarification was in order. It also appeared that, while the post-war "S" gauge two-rail period is quite well covered, there is very little information still in print on their immediate ancestors. The purpose of this little guide is to present, to the people who are unaware of their existence, the three-rail "Tru-Model" toy trains of the A. C. Gilbert Company, of New Haven CT, which were introduced at the 1939 New York World's Fair, and which were produced until the war-imposed shutdown of non-essential manufacturing, in July 1942. Dimensions and color schemes are provided, throughout the work. Wheel arrangements follow the Whyte system of course. Lengths given exclude couplers. Locomotive lengths given include the proper tender. At LEAST one

large color photo is included for EACH distinct item, and EVERY set is illustrated in catalog format, in color! Captions are self-explanatory. All (220+) photographs were taken by the author, of specimens from his personal collection, unless specifically credited otherwise. While an attempt was made to show 'better-grade, collectible' specimens, the cars are representative of vintage TOYS, and are not intended to represent the pristine, mint-in-the-box, items available to only a very wealthy few. It should be noted that when Gilbert brought American Flyer in 1938 there was a substantial amount of salable (but non-scale) "Chicago" inventory on hand. Prior to that time, most toy trains, in general, were quite unrealistic in appearance, particularly car length. If you wanted more realism, you had but one choice - build from scratch! This guide does NOT cover ANY of that pre-1940 "Chicago Flyer" material! The 1939 American Flyer catalog first introduced the die-cast 3/16" scale equipment, but only in the four most expensive sets, which would become the two top-of-the-line locomotives. By 1940, the conversion to 3/16" scale (including the first pressed-steel cars) was well under way, but it was not until the 1941 catalog that ALL offerings were of Gilbert's new 3/16" scale design. The first post-war catalog (for 1946) does not list the very limited remaining stock of "O" gauge trains which was sold off as soon as possible so as to concentrate on the brand new - and more exciting - two-rail lineup. There is some intentional redundancy in the descriptions, since it is felt that many users are going to simply look in the index for "their" car(s), and I wanted them to be able to find everything in one place, without their having to crawl page by page. It should be noted that legitimate, factory produced, items are known with some feature(s) differing slightly from the "standard" versions of the items presented here. Money was saved wherever possible, and shortcuts were taken, particularly as to colors, and markings. Nothing was wasted - some cabooses were even made on tender frames! The most common off-beat example being that some cars will have two "American Flyer Lines" decals instead of the normal one, plus the car number. Paint shades may vary. It must be remembered that their intent was to produce operable toys, hopefully at a profit, for the enjoyment of (mostly) children, and they were not following any rigid rules to satisfy 'nit-picking' collectors in the then far-distant future. Within certain parameters almost anything is at least possible and, after 80 years, some repairs, repaints, etc. have themselves acquired the patina of genuine-ness and antiquity. The author takes full responsibility for the accuracy of any opinions regarding such specimens which may be stated in this work. The author welcomes input from fellow collectors having any corrections, or further information, regarding these trains, which may be incorporated into future editions of this work.

An unusually large volume, it covers most of the Book of Acts, the New Testament epistles, and the Book of Revelation. We read of Saul's conversion and then follow him as the Apostle Paul as he takes his five major journeys throughout the Mediterranean area. The book of Acts provides the historical context to his journeys. Along the way, we read his teachings in his 14 marvelous epistles to early Church members. Eventually, we follow Paul to Rome where he was martyred for the cause of Christ. This volume also covers the epistles of James, Peter, John, and Jude. And finally, we read the Book of Revelation? John's apocalyptic messages written while he was on the Isle of Patmos. The cover features a classic painting of ?St. Paul at His Writing Desk,? painted by Rembrandt in 1692.
